

NOTESTANDARD (JOSSY DIGITAL TECHNOLOGIES LTD)

EXECUTIVE COMPLIANCE, RISK & BANKING INFRASTRUCTURE SUMMARY

1. Corporate & Legal Overview

- **Legal Entity:** Jossy Digital Technologies Ltd (RC: 9586407)
- **Platform Brand:** NoteStandard (<https://notestandard.com>)
- **Head Office:** Effurun, Delta State, Nigeria
- **Emails:** admin@notestandard.com | support@notestandard.com
- **Director:** Aghogho Oboh | **Date:** 03 August 2026
- **Funding:** 100% Founder-Funded (Bootstrapped, \$0 Dilution)

2. Primary Business & Products

- **Core Offerings:** Multi-Currency Wallets, NUBAN Virtual Accounts, NIP Transfers, Internal Book Transfers, Bill Payments, Merchant Collections.
- **Crypto Workflow:** Non-custodial fiat processing via regulated third-party infrastructure.
- **Planned Expansion:** Payment cards, international ACH/SEPA (Phase 2).

3. Internal Ledger Specification (System of Record)

- **System of Record:** NoteStandard maintains an internal, immutable double-entry ledger (LedgerEngine.js) for accounting, balance tracking, and audit trails.
- **Anchor Role:** Anchor serves strictly as regulated banking clearing rail and NUBAN issuance partner, not system of record.
- **Reconciliation:** Real-time webhook posting & automated end-of-day balance checks.

4. Projected Processing Volumes (Baseline)

- **Monthly Baseline Volume:** █100,000,000 (~\$66,667 USD)
- **Daily Average Volume:** █3,333,333 (~\$2,222 USD / ~170 txns)
- **Flow Breakdown:** Wallet Funding NIP (40.5%), NIP Outbound Payouts (26.25%), Wallet Withdrawals (12.0%), Book Transfers (10.8%), Crypto On/Off-Ramp (8.4%), Bill Payments (2.05%).

5. Identity Verification (KYC) Infrastructure

- **Primary KYC Provider:** Prembly (IdentityPass). Additional providers may be integrated as business requirements evolve.
- **Tiered KYC:** Tier 1 (BVN/NIN + Phone), Tier 2 (Govt ID + Address), Tier 3 (Utility + Business CAC).
- **Underage Policy:** Accounts strictly prohibited for individuals under 18.

6. AML, PEP & Sanctions Screening

- **Screening & Verification:** Customer onboarding includes automated identity verification and sanctions screening through integrated compliance providers.
- **Transaction Monitoring:** Custom AML engine with velocity rule limits (risk_rules_velocity).
- **Risk Engine:** Automated risk scoring (RiskDecisionEngine.js) and manual review queue.

7. Information Security & Compliance Readiness

- **Authentication:** JWT tokens with multi-factor OTP validation for high-risk payouts.
- **Idempotency:** Strict event_id idempotency keys & replay protection.
- **Encryption:** AES-256-GCM encryption at rest (KMS); TLS 1.3 in transit.
- **Audit Status:** Internal OWASP pen-tests & DR exercises complete; external audits planned.

8. Operational Controls & Customer Support

- **Business Hours:** Mon–Fri 8AM–6PM WAT | Sat 9AM–4PM WAT.
- **Support Channels:** In-app 24/7 AI + Live Chat, Email (admin@notestandard.com / support@notestandard.com), Phone, WhatsApp.
- **Disclosures:** Terms of Service, Privacy Policy, and Electronic Consent Agreements published and active.
